The Department of Public Health and Social Services (DPHSS) tested 110 individuals for COVID-19 on Tuesday, April 28, 2020 with conclusive results. One tested positive through DPHSS and 109 tested negative for SARS-CoV-2. The results include samples from the COVID-19 expanded testing in Astumbo, Dededo.

The DPHSS overall count also includes probable cases of COVID-19 and confirmed positive cases tested by the Naval Health Research Center (NHRC) in San Diego, the Guam Memorial Hospital Authority (GMHA), the Guam National Guard (GUNG), and Diagnostic Laboratory Services (DLS).

To date, 145 cases have been confirmed through COVID-19 testing provided, with 5 deaths and 129 released from isolation. When a patient is released from isolation, he or she is no longer considered infectious. According to the U.S. Centers for Disease Control and Prevention (CDC) research and published guidelines, a patient is released from isolation after at least 72 hours have passed without a fever or additional respiratory issues and at least seven days have passed since symptoms first appeared. All remaining cases are in isolation.
